

British Orthopaedic SCFE Surgery Study for Severe Stable Slips

Collaborator Agreement

This document details the agreement between Oxford Trauma and BigBOSS Collaborators

- Oxford Trauma values the role clinical staff can have in research.
- Oxford Trauma seeks to involve orthopaedic trainees, ED trainees, specialist nurses, physiotherapists and consultants in all studies where possible.
- Oxford Trauma commits, alongside site staff and R&D departments, to confirm evidence of participation in studies as part of CPD.
- Oxford Trauma intends to name individuals who can demonstrate these criteria as named PubMed collaborators on submitted manuscripts. This will be subject to journal policy. Collaborators will be acknowledged in the primary clinical paper unless otherwise stated.

The criteria for determining an individual’s collaborator status are:

Activity	Points	Evidence/ suggestions
Setup	Up to 2 points	- Initial BigBOSS contact at site - Recruit a Principal Investigator - Return SFQ - Site induction visit attendance
GRANULE Course	2	- GRANULE Certificate (available to complete online at NIHR Learn) https://learn.nihr.ac.uk/course/ and register using an NHS e-mail address.
Consent & Randomisation	5	- Recruitment Certificate(s)
Training a colleague	0.5 per colleague trained (Max of 3 points)	- Updated training & delegation logs in REDCap

10 points and above – named PubMed collaborator

Note: *It is your responsibility to present evidence to the Trial Team when you accumulate 10 points or more.*
